

# Favorite things to do

meep meep

## Drawing

### Comics

### Fanart

I particularly enjoy drawing, creating stories, and designs. I am interested in creating comics to publish in the future. I also enjoy drawing characters from shows and my own characters.

## Anime

### Watching

### Analysis

I really enjoy watching anime, and cartoons from both the US and other countries. I enjoy seeing they different stories, art styles, and interpretations of ideas. I particularly enjoy anime's with a lot of thought put into them that you can analyze and compare.

## Cosplay

### Creating

### Going to conventions

I also enjoy going to conventions, and seeing all of the amazing cosplays people have worked hard to put together. I like wearing my own costumes and meeting new people, and seeing old friends. Panels are also a joy to attend, especially when I learn new things or get to play fun games.

[McHenry County College](#)

I am taking this class if not only bacue I need to for my art certificate. Although it could also be considered beneficial to me considering I intento to attampt to make more games in the future, where of course coding is an important aspect to know. I also intend to work on a website for my art, comics, and stuff in general to all be accessed in one place. I mean my dad intends to help me with that, but knowing him I cant rely on him to do it all, not only because that would be sort of lazy of me but also because he just won't.
